

EDUCATION

B.Tech, Computer Science And Business Systems

Ramrao Adik Institute Of Technology

2020 - 2024

INTERNSHIPS

Machine Learning Intern

Suvidha Foundation, Virtual

Nov 2022 - Dec 2022

I was allotted a project on Text Summarization which is under the NLP domain and also a social awareness task of fundraiser as a part of social task.

Cyber Security Virtual Intern

Aicte, Virtual

Mar 2022 - May 2022

Learnt Fundamentals of Cloud Security, Cybersecurity, Network Security and SOC.

TRAININGS

Ruby On Rails CRUD App Development And TDD

Alison, Mumbai

Nov 2022 - Nov 2022

Cloud Computing Using AWS

TCR INNOVATION, Mumbai

Nov 2022 - Dec 2022

Sustainable Business Strategy

Harvard Business School Online, Online

Jan 2022 - Feb 2022

This course dealt with certain case studies that revolved around dealing with sustainable practices for a company in order for it to exist in the near future and also dealing with the S-curve meanwhile.

Business Analytics

Harvard Business School Online, Online

Aug 2021 - Sep 2021

This certificate program introduced certain quantitative methods used to analyze data and make better management decisions with the help of an embedded excel sheet to perform various actions.

PROJECTS

Stock Price Prediction using Machine Learning Algorithm

Jul 2022 - Nov 2022

The stock market prices are very unpredictable and need accuracy to some extent. To employ this, me and my team worked on a Recurrent Neural Network based LSTM model which predicted the stock prices of certain datasets with a high level of accuracy.

Interactive Dynamic Web Application using Amazon Web Services

Aug 2022 - Nov 2022

The project made use of S3 storage services, DynamoDB, Lambda and API gateway for achieving the desired results and working of the website services. The API Gateway will route the HTTP queries to the lambda services which were created using python.
